# HISTORY

DTA is a family owned company founded in 1972 as a company specialized in design and production of custom solutions for on site transportation. DTA started in 1972 supplying engineering services and equipment in Spanish shipyards.

After that, we started to produce our own solutions but outsourcing the engineering from a German company.

In the meantime, we supplied transporters not only for shipbuilding but also for other heavy industries.

In order to boost sales, we decided to do our own engineering, diversify on all types of heavy industry sectors and sell worldwide.

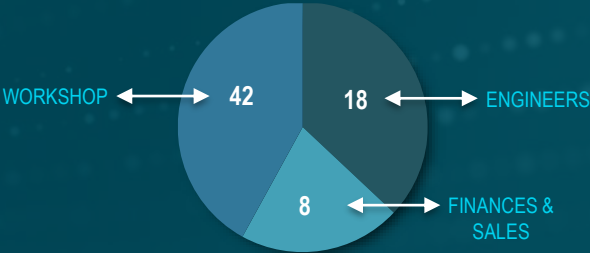

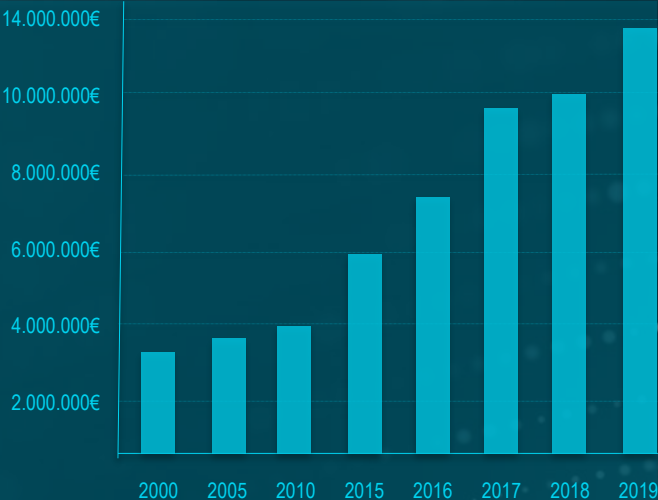

Nowadays, DTA is one of the most reliable and important companies in the world with regards to design and manufacture of all types of tailor made transport solutions for on site transportation.

- 1972** | Company founded.
- 1975** | Mechanical engineering outsource.
- 1995** | DTA designed its first 250 Ton vehicle.
- 1999** | DTA started complex projects which included all type of transporters for all type of heavy industries.
- 2004** | DTA was awarded with the first contract for the design and manufacturing of 1xAGV for aerospace sector.
- 2005** | Engineering department implemented Solidworks design program.
- 2006** | Unit n°100 was successfully delivered
- 2008** | First AGV 100% designed and manufactured by DTA.
- 2012** | DTA opens its new facilities in Torrejon de Ardoz (Madrid).
- 2018** | Due to an increase in production and new orders, DTA bought a new Factory in Madrid starting 3rd Q2019.

# KEY FIGURES

- **EMPLOYEES: 70**
- **R&D INVESTMENT: 8%**
- **EXPORT: 70%**

# WORLD PRESENCE

- Our market coverage
- Direct presence through distributors & agents.
- Over **50** countries worldwide.

# BUSINESS AREA. PRODUCTS

**T-REX**

HEAVY DUTY TRANSPORTERS

**RHINO**

ELECTRIC TRANSFER CARTS

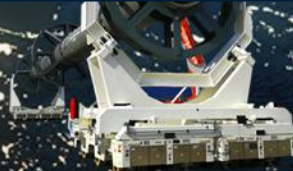

**DOLPHIN**

FULLY AUTOMATIC SOLUTION

**TIGER**

TAYLOR MADE SOLUTION

# RHINO

ELECTRIC TRANSFER CARTS

Rhino movers for handling loads with remote control from 1 ton up to 70 tons.

Easy to handle , robust and long lasting.

# RHINO

## ELECTRIC TRANSFER CARTS

# DOLPHIN

FULLY AUTOMATIC SOLUTION

Our Dolphin movers are fully automatic, smart , accurate and productive.

Unique designs based on clients requirement.

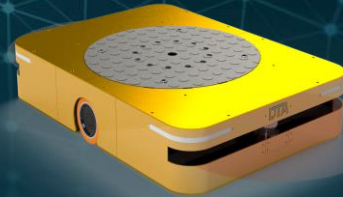

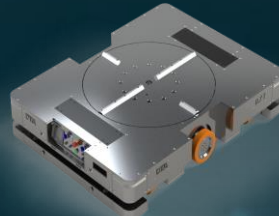

# DOLPHIN

FULLY AUTOMATIC SOLUTION

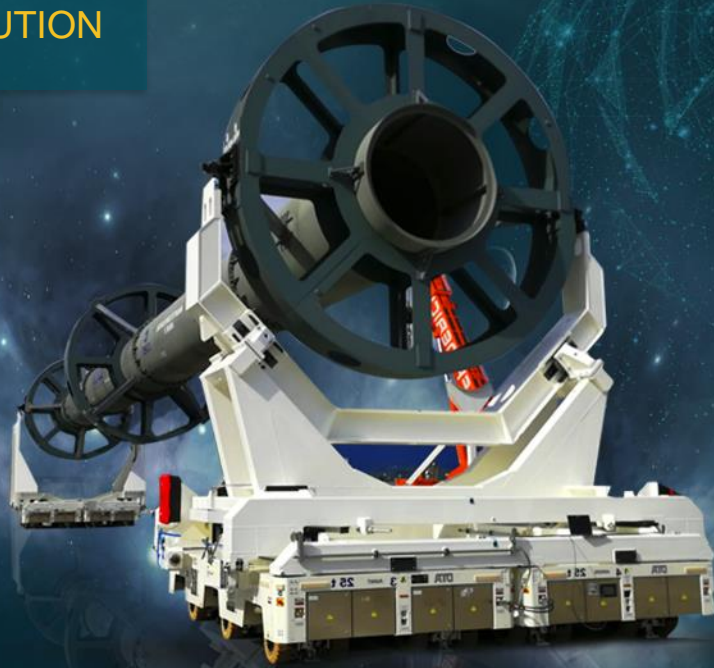

# DOLPHIN

FULLY AUTOMATIC SOLUTION

# TIGER

TAYLOR MADE SOLUTION

Sophisticated tiger movers involving engineering transport solutions as per clients requirement.

Let us know what you need and we will make it for you.

# TIGER

TAYLOR MADE SOLUTION

# T-REX

## HEAVY DUTY TRANSPORTERS

Either in electric or diesel for handling massive loads without limitations.

Powerful, versatile and smooth. These features makes it our exclusive mover.

# T-REX

HEAVY DUTY TRANSPORTERS

# PRODUCTIVITY LOOP

1 – THINK ON THE BEST TECHNICAL SOLUTION

2 - PROJECT MANAGEMENT

3 – ENGINEERING DESIGN

6 - TECHNICAL ASSISTANCE

5 – SOFTWARE, TEST AND START-UP

4 - MANUFACTURE AND ASSEMBLY

DTA

# DTA IN DIFFERENT INDUSTRY SECTORS

## Steelmills&Foundry

We supply different vehicles and AGVs to transfer coils, billets, Rolling cylinders, etc.

## Aerospace

Our AGVs are present in this sector to move fuselage parts as well as assembly lines. Most of aircrafts manufacturers and subcontractors trust in our solutions to transfer their products.

## Shipbuilding

We have more than 45 years of experience supplying transporters as well as other solutions to move steel blocks, plates, motors, etc.

## Windmill

Our platforms are currently present in this sector to move nacelles and towers of the most important manufacturers of wind turbines & towers worldwide.

## Automotive

Our electric die carts move molds&dies up to 80 tons as per clients requirements.

## Nuclear Plants

Many of our AGVs and electric vehicles move containers and radioactive loads. We produce sturdy vehicles which comply the most demanding regulations in the industry to transfer the load with no risk for the operator.
